

2010 Mazda RX-8
NO CYLINDERS. NO PISTONS. NO VALVES. NO EQUAL.

As the world's first and only rotary-powered four-door sports car, Mazda RX-8 stands squarely apart from the rest of the category. Its remarkably responsive performance is due to sports car engineering without equal. Starting with a potent 232-hp RENESIS rotary engine that redlines at a stratospheric 9,000 rpm* And a sport-tuned suspension with Bilstein® shocks. Plus its unique freestyle doors allow rear-seat passengers to enter and exit with exceptional ease. From its visionary rotary powerplant to its inspired interior, the RX-8 continues to be driven by imagination, fueled by innovation and dedicated to an exhilarating, single-minded engineering ideal. **Zoom-Zoom. Forever.**
