- The Around View™ Monitor is a parking aid/convenience. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check your surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. The front and rear sonar systems are conveniences features, but cannot substitute proper parking procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front or behind you.
- Intelligent Cruise Control (Full-Speed Range) is not a collision avoidance or warning device. For highway use only and not intended for congested areas or city driving. The system will not brake automatically to a stop. Failure to apply the brakes could result in an accident.
- Brake Assist with Preview is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to stay alert, drive safely and be in control of the vehicle at all times.
- Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.

8. - Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the frontpassenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your owner's manual for more details.
