2010 Jeep[®]
Liberty

Rule on and off the road with Jeep® Liberty 4x4.

One of the hallmarks of the popular Jeep Liberty is its perfect blend of responsive, on-road handling and tough off-road capability. Thanks to a Short/Long Arm (SLA) independent front suspension, five-link rear suspension and power-assisted rack and pinion steering, you can expect a smooth, comfortable ride that is designed to handle rugged obstacles and the rigours of your daily commute with equal agility. You'll also find an available skid plate group, telescoping rear driveshaft that adjusts for small changes during normal suspension travel, and a gas tank that is positioned to allow the spare tire to be mounted under the vehicle for added versatility.

Two Jeep Trail Rated® four-wheel-drive systems – Command-Trac II™ and Selec-Trac II™ – offer nimble, confidence-inspiring handling and off-road capability that is perfect for the independent adventurer. Selec-Trac II is exclusively available on the 2010 Jeep Liberty. When in 4WD AUTO mode, the always-active 4WD transfer case provides continuous, optimum traction that assists in conquering rocks, snow, ice, mud and anything in between. For economy-minded travellers, Selec-Trac II delivers a unique two-wheel-drive mode, an efficiently strong feature that perfectly pairs with dry pavement.

Working to help Liberty reach the highest heights, standard Hill Start Assist (HSA) momentarily holds brake pressure as you climb, fighting vehicle roll back and eliminating the need for two-footed driving in many off-road situations. Hill Decent Control (HDC) is also standard and assists when Liberty comes down the mountain. Active in 4LO when the HDC button is depressed, it allows the driver to smoothly descend hills in a slow and controlled manner. Conquering rugged terrain or treacherous road conditions has never been so much fun.

The standard 3.7L V6 engine produces a robust 210 hp and 235 lb.-ft. of torque at 4000 rpm, with a generous dose of power at the engine's low-end that provides more pull when the going gets tough.

jeep.ca/liberty

Jeep Liberty comes standard with a Fuel Saver Indicator. This display in the instrument cluster toggles on or off to inform you when you're getting the best fuel economy from Liberty. Also standard is an Interactive Decel Fuel Shut-off (iDFSO), which helps regulate fuel use more efficiently during deceleration.

Jeep® Trail Rated® vehicles are designed to perform in a variety of off-road conditions identified by five performance categories:

Articulation

The ability to keep tires in contact with the road, providing traction to climb over large obstacles.

Ground clearance

The ability to drive over large obstacles or logs in combination with approach/departure/breakover angles.

Manoeuvrability

The ability to navigate around obstacles that are tightly situated.

Traction

The ability to transfer power to the road or trail, along with the ability of the suspension to keep the wheels in contact with the terrain.

Water fording

The ability to cross a specific depth of water at a specific speed.

Do not attempt water fording unless depth is known to be less than 500 millimetres (20 inches). Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas.

JEEP® LIBERTY LIMITED SHOWN IN BRILLIANT BLACK CRYSTAL PEARL

Civilized freedom. Urban sophistication.

In the Jeep® Liberty lineup, Limited is the one that has it all: off-road prowess, on-road athleticism, luxurious amenities throughout, and a sophisticated exterior that exudes a contemporary interpretation of classic Jeep style. A standard 210-horsepower 3.7L V6 engine with Electronic Throttle Control (ETC) is perfectly matched with the available Selec-Trac II™ Active Full-Time 4WD transfer case. The available Automatic Temperature Control lets you preset the desired cabin temperature and automatically adjusts airflow as needed, dehumidifies, and maintains a constant level of cabin comfort. Liberty Limited's interior plays nice with a sweet list of features including standard heated, leather-faced front seats, standard memory system with driver's seat, exterior mirror and radio hold presets for two drivers. Savour the rich sounds of a premium sound system featuring eight ∞ Infinity® speakers, a 368-watt amplifier, plus a bass-boosting subwoofer. Standard Security Alarm and available ParkSense® Rear Park Assist⁽¹⁾ are more examples of Liberty's convenient safety and security features. Integrated fog lamps and available 18-inch chrome-clad cast aluminum wheels help complete the picture of a world of freedom that is civilized, fashionable, and above all, filled with fun.

⁽¹⁾Intended to provide assistance to the driver. Always exercise appropriate care while reversing.

Go Everywhere. Hear Everything.

For even more advanced technology to go, the 2010 Jeep Liberty offers available touch screen Media Centre 730N CD/DVD/HDD/NAV radio that combines turn-by-turn navigation with a world of onboard information, entertainment and communication. A 30GB hard drive lets you store photos, playlists and songs as well as rip, stash, organize and shuffle up to 4,250 digital music files from CDs, the integrated USB port or exterior input jack. Limited's standard Uconnect Phone⁽²⁾ connects your compatible cell phone to Bluetooth™ technology for convenient hands-free calling.

⁽²⁾Must use Bluetooth compatible mobile phone.

Room for it all.

Cargo capacity is 892L (31.5 cu. ft.) with the rear seat up and expands to 1818L (64.2 cu. ft.) with Liberty's 60/40-split folding rear seats folded flat.

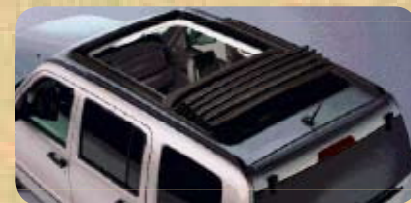

Limited features a Tire Pressure Monitor Display System that automatically sends data from transmitters in each valve stem to a monitoring display so you always know what's between you and the road.

JEEP LIBERTY LIMITED LEATHER-FACED SEATS SHOWN IN DARK SLATE GREY

JEEP LIBERTY LIMITED SHOWN IN DEEP WATER BLUE PEARL WITH AVAILABLE SKY SLIDER ROOF

It's the Sky Slider® roof, Jeep® Liberty's industry-exclusive full-length, fully retractable premium roof. With one simple touch of a button, the optional Sky Slider roof automatically retracts to a massive 838x1524-millimetre (33x60-inch), opening to let you see straight into the upper atmosphere. Able to move fully forward, fully rearward, or partially opened to any position in between.

Available 'Sky's the Limit Group' on Limited includes: Trailer Tow Group, Comfort/Convenience Group, Selec-Trac II™ active full-time transfer case, power sunroof, Media Centre 730N CD/DVD/HDD/NAV radio and 18x7-inch chrome-clad cast aluminum wheels.

jeep.ca/liberty

Adventure done your way.

Jeep® has always been about freedom. Freedom to go your own way, to choose your adventure and to do it all with confidence in a vehicle that suits who you are, your budget and everything you're into. The Canadian Exclusive **Jeep Liberty North Edition** makes it easy by bringing together the perfect blend of popular features. Start with the Liberty Sport and some outlined white letter all-season tires. Add deep-tint rear door, quarter and liftgate windows, and fog lamps. Throw in a security alarm, compass and temperature display, cargo compartment cover, and speed control. Then place roof rack side rails and the official North Edition badges and suddenly going North seems like a lot more fun.

jeep.ca/liberty

JEEP LIBERTY NORTH EDITION SHOWN IN NATURAL GREEN PEARL

A fearless friend.

Designed to live the Trail Rated® life of a modern off-road superhero, the **2010 Jeep® Liberty Sport** is primed to rescue you from dull driving anywhere you go. Equip your Sport with the optional Selec-Trac II™ active full-time 4WD system and you're ready for anything. It's automatically paired with Liberty's standard 210-horsepower 3.7L V6 engine featuring the smoothness of Electronic Throttle Control.

Bring along your high-powered toys when you equip Sport with the optional Class III Trailer Tow Group with Trailer Sway Control (TSC). TSC works with the standard Electronic Stability Program (ESP™)⁽¹⁾ to automatically help maintain vehicle and trailer stability. Add some sun inside the cabin with the optional tilt-and-slide power sunroof. Or, increase your view of the world around you by 255% with the Sky Slider® exclusive full-length, fully retractable premium roof.

The 2010 Jeep Liberty Sport gives you plenty of interior room to roam and lots of places to store maps, flashlights and other fun stuff. The centre console gives you eight litres of storage in the lower bin, accommodating up to 13 DVD cases; two litres in the console's removable upper tray holds phones, PDAs and the like. Low-back reclining front buckets, a fold-flat front passenger seat, and 60/40-split folding rear seats with four reclining positions (that lean back to a restful 33-degree angle and also fold flat forward) offer comfort combined with flat-out utility.

JEEP LIBERTY SPORT SHOWN IN INFERNO RED CRYSTAL PEARL WITH THE OPTIONAL TRAILER TOW GROUP

JEEP LIBERTY SPORT CLOTH-FACED SEATS WITH STAIN REPEL⁽²⁾ SEAT FABRIC SHOWN IN LIGHT SLATE GREY/DARK SLATE GREY

⁽¹⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the instrument cluster flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt. ⁽²⁾Not compatible with aftermarket fabric protecting coatings.

Peace of mind.

Loaded with a solid set of standard safety and security features that include advanced multistage driver and front passenger air bags,⁽¹⁾ side-curtain air bags,⁽¹⁾ as well as Liberty's Electronic Stability Program (ESP™)⁽²⁾ each take immediate action should the unexpected occur. Also standard and new for 2010 are front row Active Head Restraints. Active Head Restraints move forward and upward in the event of a rear-end collision to decrease the space between the head rest and occupant's head, thereby helping to reduce the chance of injury. A host of integrated systems, including Electronic Roll Mitigation (ERM), Anti-lock Brake System (ABS), Brake Assist and All-speed Traction Control, work together to give you a secure sense of mastery on or off the road.

Trailer Sway Control

Liberty's available Trailer Sway Control (TSC) works in tandem with ESP and ABS.

By alternating brake pressure, it helps reduce trailer sway and improves handling in adverse towing conditions caused by crosswinds and traffic.

⁽¹⁾Always use seat belts. Children 12 and under should always be in a back seat correctly using an infant or child restraint system, or the seat belt properly positioned, dependent on the child's age and weight. ⁽²⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the instrument cluster flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt. ⁽³⁾Star ratings are part of the U.S. Government's National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). Based on NHTSA scoring system for 2010 Jeep Liberty. ⁽⁴⁾The passenger occupant classification system (OCS) determines the conditions for activation or deactivation of the passenger side front air bag based on the weight of the occupant. It may not activate the passenger air bag if the occupant has incorrect seating posture or is moving in the seat. Always observe the passenger air bag indicator light to determine if the OCS is deciding properly. Passengers should sit properly in the seat with the seat belt fastened at all times. ⁽⁵⁾Intended to provide assistance to the driver. Always exercise appropriate care while reversing.
